

FINAL

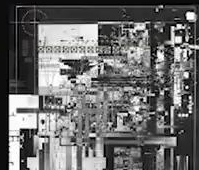

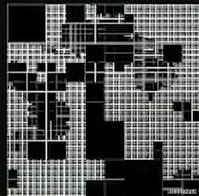

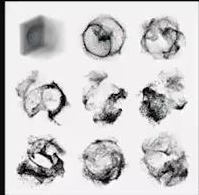

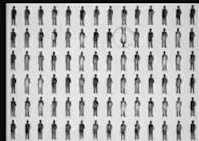

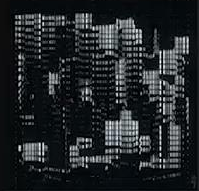

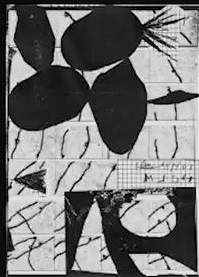

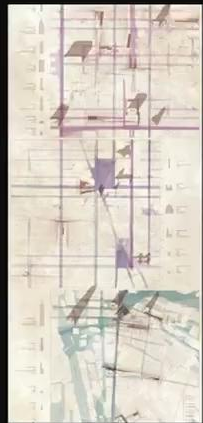

JERRY ZHAO

GOALS FROM MIDTERM

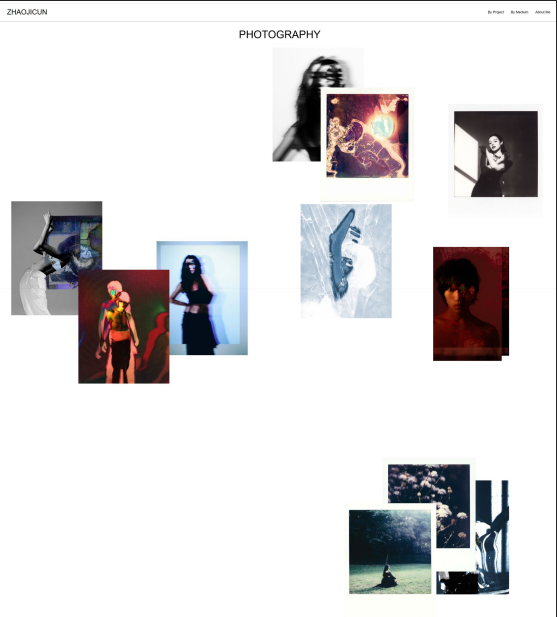

1. Fill out and style pages
2. Turn the header menu into a hamburger menu for mobile

REVISED GOALS

1. Portfolio design for all my multimedia works
2. Mobile-first design
3. Include the right amount of animation, nothing overly flashy
4. Better file organization

ORIGINAL

AUTOMATIC REUSABLE FOOTER & UPDATE DATE (JS)

```
// Reusable footer snippet
(function() {
  const footerHTML = `
<footer class="site-footer">
  <p id="last-updated">Last modified <span id="current-date">April 22, 2025</span></p>
  <div class="social-links">
    <a
      href="https://instagram.com/shaojicun"
      target="_blank"
      aria-label="Instagram"
    >
      
    </a>
    <a
      href="https://www.linkedin.com/in/jerry-zhao-56a08319a/"
      target="_blank"
      aria-label="LinkedIn"
    >
      
    </a>
    <a href="mailto:jerry.zhaojicun@gmail.com" aria-label="Email">
      
    </a>
  </div>
  <p>&copy; <span id="copyright-year">2025</span> Jerry Zhao</p>
</footer>
`;

  // Create and insert footer when DOM is loaded
  document.addEventListener('DOMContentLoaded', function() {
    // Insert the footer at the end of the body
    document.body.insertAdjacentHTML('beforeend', footerHTML);

    // Update the date and year
    updateCurrentDate();
    updateCopyrightYear();
  });

  // Function to display the last modified date of the current page
  function updateCurrentDate() {
    // Get the last modified date of the current document
    const lastModified = new Date(document.lastModified);
    const options = { year: 'numeric', month: 'long', day: 'numeric' };
    const formattedDate = lastModified.toLocaleDateString('en-US', options);

    const dateElement = document.getElementById('current-date');
    if (dateElement) {
      dateElement.textContent = formattedDate;
    }
  }

  // Function to update the copyright year
  function updateCopyrightYear() {
    const currentYear = new Date().getFullYear();

    const copyrightElement = document.getElementById('copyright-year');
    if (copyrightElement) {
      copyrightElement.textContent = currentYear;
    }
  }
})();
```

`<base href="/" />`

FROSTED HAMBURGER MENU (CS)

```
/* Hamburger Menu & Header styles */
header {
  display: flex;
  flex-direction: row;
  justify-content: space-between;
  align-items: center;
  padding: 1rem;
  position: relative;
  z-index: 100; /* Keep header above everything */
}

.hamburger {
  display: block;
  width: 20px;
  height: 30px;
  position: relative;
  z-index: 20; /* Higher than the menu to stay clickable */
  cursor: pointer;
}

.hamburger span {
  display: block;
  position: absolute;
  height: 2px;
  width: 100%;
  background: black;
  opacity: 1;
  left: 0;
  transform: rotate(0deg);
  transition: .25s ease-in-out;
}

.hamburger span:nth-child(1) {
  top: 0px;
}

.hamburger span:nth-child(2) {
  top: 18px;
}

.hamburger.active span:nth-child(1) {
  top: 9px;
  transform: rotate(135deg);
}

.hamburger.active span:nth-child(2) {
  top: 9px;
  transform: rotate(-135deg);
}
```

```
/* Full screen menu overlay */
.nav-menu {
  position: fixed;
  top: 0;
  left: 0;
  width: 100%;
  height: 100%;
  background-color: rgba(255, 255, 255, .5); /* Semi-transparent background */
  backdrop-filter: blur(15px); /* Heavy blur effect */
  -webkit-backdrop-filter: blur(15px); /* For Safari */
  transition: all 0.4s ease;
  z-index: 10;
  opacity: 0;
  visibility: hidden;
  display: flex;
  justify-content: center;
  align-items: center;
}

.nav-menu.active {
  opacity: 1;
  visibility: visible;
}

.nav-menu ul {
  list-style: none;
  padding: 0;
  text-align: center;
  transform: translateY(20px);
  transition: transform 0.3s ease;
}

.nav-menu.active ul {
  transform: translateY(0);
}

.nav-menu ul li {
  padding: 15px 20px;
  margin-bottom: 10px;
}

.nav-menu ul li a {
  font-size: 1rem;
  display: block;
  color: black;
  transition: transform 0.3s ease, color 0.3s ease;
  text-transform: uppercase;
  font-weight: 600;
}

.nav-menu .current-page {
  text-decoration: line-through;
}

.nav-menu ul li a:hover {
  transform: scale(1.1);
  color: rgba(255, 255, 255, 0.8);
}
```

PROJECTS

ABOUT

LOAD IN ANIMATIONS (CSS & GSAP ANIMATIONS - DEMO)

ISSUES

1. Creating a “one-time load” landing page condition
2. Mobile only hamburger menu with pure css
3. Actually making my files manageable
4. Making the footer automatic and modular per page

FOR THE FUTURE

1. Fill out more pages with content and animation
2. Clear out redundancies in code by making it more “efficient”
3. Have a clearer creative bible

THANK YOU
